Submission number: **RS294021-19**

Decision number: **SUB-D-2114211407-60-01/F**

DECISION ON YOUR REGISTRATION UNDER REGULATION (EC) NO 1907/2006

Dear Sir/Madam,

In accordance with Article 20(2) of Regulation (EC) No 1907/2006 ("the REACH Regulation"), the European Chemicals Agency (ECHA) has examined the completeness of your registration dossier for **Ashes (residues), nonhazardous municipal solid waste**. This registration by **TERMIZO a.s.** includes:

- a substance in quantities **over 1000 tonnes/year**

The registration was considered complete.

The registration number for this registration: **01-2119905499-28-0000**

The registration date for this registration: **02 February 2012**

This registration entitles you to manufacture/import the above-mentioned substance or, if relevant, to produce/import an article containing it. If, however, you have been informed by ECHA that a previous registrant has requested an extension of your registration waiting period (in accordance with article 27(8) of the REACH Regulation), you may start to manufacture/import the substance (or import/produce the article containing it) only after the expiry of 4 months from the date of notification of the present decision.

Please note that ECHA always informs registrants that:

- In accordance with Article 20(2) of the REACH Regulation, the completeness check ascertains that all the elements required and the fee payment has been provided. However, this completeness check does not include an assessment of the quality or the adequacy of any data or justifications submitted. Such an assessment may occur during a later stage in a compliance check.
- In accordance with Article 22(1) of the REACH Regulation, registrants are on their own initiative required to update their registrations without undue delay with relevant new information and submit them to ECHA in the cases described in this Article (for instance, change in status, substance composition or quantities).

Note that, if your IUCLID dossier did not include an EC number in section 1.1, REACH-IT will have automatically generated one because substances in dossier updates always have to be identified with the relevant EC number. In this case, before proceeding with an update dossier you have to export from REACH-IT the EC entry that has been created and import it into your IUCLID installation inventory. Failure to do so will result in your

07 February 2012

dossier being automatically rejected by the system. For detailed instructions on how to do this, please consult Data Submission Manual 4 available at <http://www.echa.europa.eu/web/guest/support/dossier-submission-tools/reach-it/registration>.

Please also be aware that, in accordance with Article 119 of the REACH Regulation, certain information from this registration dossier will be published in the Dissemination Portal on the ECHA website without further notice. For further information on the practical arrangements for inclusion of information from registration dossiers in the Dissemination Portal, please consult the information published at <http://echa.europa.eu/web/guest/regulations/reach/substance-registration/publishing-information-from-dossiers>.

If you have a specific concern about the content of this message you can contact the ECHA Helpdesk using the webform at http://apps.echa.europa.eu/forms/cms_helpdesk_form.aspx. Provide your contact details at step 1, then at step 2 select the menu item 'Submission to ECHA via REACH-IT' and enter the submission number indicated in the message header of this communication.

Yours faithfully,

Kevin Pollard
